This is in response to the Final Rejection dated July 5, 2007. Entry of this response is solicited on the ground that it will place the case in condition for Allowance or in better condition for Appeal. Also entry is solicited because a new issue (double patenting over U.S. 6,638,959) has been raised in the Final Rejection.

Reconsideration of this application is requested in view of the following amendment and remarks. Filed concurrently herewith is a Terminal Disclaimer to overcome the double patenting rejection based on U.S. 6,638,959. Authorization for payment of the fee for the Terminal Disclaimer is included in this submission.

Amendments to the Claims begin on Page 2 of this Response.

Remarks begin on Page 4 of this Response.
